The feature of the present Stock Mark that is attracting most attention amo careful people is the dissimilarity of t movements of the industrial list gene ally and the railway securities. Duri the past week half a dozen or more the most important railway stocks ha made new high price records, better than ever attained before, and the general list is at the present time selling very close to the top average level. At the same time Amalgamated Copper has been going in the opposite direction with a sensational directness of route that has seldom been equaled in the history of the New York Stock Exchange, and the great majority of industrial securities are selling not your form the securities. ing not very far above their lowest levels. It is not well, however, to assume immediately, as many are doing, that the weakness of the industrial securities at present is due to weakness in the manufacturing situation. If there were such weakness, if business were really waning, despite the surface appearance of prosweakness, if business were really waning, despite the surface appearance of prosperity it is certain that the railway securities too would begin to show it, if only in the operations of the professionals, to discount the poorer conditions. Nor is it safe to assume at once that the 'trusts' as such are inherently and utterly weak, because of over-capitalization and other basic causes.

New York, Nov. 26.—The sensational weakness of Amalgamated Copper was again the feature of the Stock Market at the opening this morning. Copper Company Controlling Prices.

It was said that the Amalgamated is holding the price of copper up artificially, but that it is able to do this on account.

but it is said that an investigation is beholding the price of copper up artificially, and that it is able to do this on account of unlawful methods. The suggestion is that the Amalgamated is operated in the same manner as the "Addyston Pipe" concern, which was declared illegal by the Supreme Court.

Firmness in the Rnilways.

The general market was firm at the opening, but showed no particular activity and no sharp price movements. The Vanderbilt securities were again features.

Railway Securities Firm.

There was little of novelty in the general market. There was some selling early in the session in sympathy with the break in Copper, but later prices recov-ered very generally to a level with last night's close or better. The Vanderbilts, the coalers, and the Western securities were all firm. The tractions had a sharp advance before noon.

Given Time to Prepare Answer to Charges.

Judge Websicr Street, Chief Justice of the Supreme Court of the Territory of Arizona, against whom certain charges have been preferred, has been heard by the Attorney General. A motion of Judge Street that he be given time to reply ;

I could not rise to my feet without fainting.

"I had suffered for three years or more at monthly periods," writes Miss Ella Sapp, of Jamestown, Guilford Co., N. C. "It seemed as though I would die with pains in my back and stomach. I could

not rise to my feet at all without fainting; had given up all hope of ever being cured, when one of my friends insisted upon my trying Dr. Pierce's Favorite Prescription. With but little faith I tried it, and before I had taken half a bottle I felt better, had better appetite and slept better. Now I have taken two bottles of 'Favorite Prescription' and one of Golden Medical Discovery,' and am happy to say I am entirely cured, and all done in two months' time when all other medicines had failed to do any good at all."
